

CWMA - County Cost Share Time & Equipment Costs

Date	Name Employee Agency	Description	Worker Cost	Equip. Type	Equip. \$	Herb Cost \$	Acres	
							T	I
							M	R
6-19-06	John Doe XXX Co. Weed	Spray middle Canyon Area	8 hr \$176.00	Spray Truck 8 hr	\$200.00	\$459.80	20	80
							10	0

The following example gives a break down of how the daily reporting requirements should be documented so you can use them for Cost Share.

John worked 8 hours spraying a project area called middle Canyon with a spray truck. He treated 20 acres with herbicide. In his travels he looked at 80 acres of land area for weed infestations (Inventory – he mapped 4 locations), he went to a location and looked at an area he sprayed 2 years ago (10 acres monitored) That day he sprayed Escort (1 oz./acre) & 2-4-D amine (45 oz/acre) & Surfactant (12 oz/acre) each acre cost him \$22.99 /acre. No reseeding was done.

This specific tracking sheet does not have to be used, if you have something developed that will show the break down of who, where, what, and when your CWMA’s cost share was derived.
